

Thank you for buying a StreetWorks product. Be confident that it will provide the quality and performance that you demand for your car. **Please read and understand all installation instructions before beginning.** Planning and preparation will make the entire process easy and quick.

#IT-USB \$69.00	#IT-USBP \$74.00
Brushed	Polished
Billet Dual USB Panel Mounted Charger	
<p>This charger has two 2.4 Amp charging ports, as well as car voltage display. Easy mounting, even in tight places. Mounts in a 1 1/2 inch hole with a bezel measuring 1 3/4 inches. Battery Voltage is shown with key in Accessory Position and alternator Voltage is shown with Car Running.</p>	

1. **Disconnect POWER at the BATTERY before doing any wiring!**
2. Determine a good place to mount the unit, and verify there is enough room behind the mounting spot. Roughly 2 1/2 inches deep overall.
3. Use a 1 1/2 Inch hole saw to drill a mounting hole. Insert the charger unit and install as shown in **Diagram 1**. Route wires out the side of the U- Bracket.
4. Wire into your Accessory circuit as shown in **Diagram2**.
5. Reconnect the BATTERY and check operation.
