

Billet Frame for L58SM Series Lights (Single)

#L58SM-FR

A Billet Aluminum Frame that allows an optional mounting method for StreetWorks #L58SM Series LED Lights (7-1/2" long x 1/2" wide lens). This is an alternative to the intended flush lens mounting of our L58SM Kits. The Frame will surface mount on the outside of the vehicle sheet metal, along with the acrylic lens from the L58SM Series Kit, while the LED bucket assembly will be on the inside of the vehicle sheet metal.

Distributed by Watson's StreetWorks Rod & Custom Products

Thank you for buying a StreetWorks product. Be confident that it will provide the quality and performance that you demand for your car. Please read and understand all installation instructions before beginning. Planning and preparation will make the entire process easy and quick. DISCONNECT POWER AT THE BATTERY BEFORE DOING ANY WIRING!

1. Examine the diagrams and understand how this frame goes together with the other parts which are in your #L58SM Series Kit.
2. Determine the location(s) for the lights on your vehicle and make sure that the surface where you intend to attach the frame and light are flat and will match/mate to the parts. Also realize that LED's are very directional and MUST point straight backwards to be properly seen at full brightness.
3. Drill/cut the necessary holes for the installation. The studs on the frame will go through the vehicle sheet metal and then through the holes in the LED bucket flange. The washers and nuts will then hold the entire assembly together.
4. Assemble using sufficient amounts of RTV, silicon caulk or sealant to make sure that water and dirt do not get into the assembly and void your warranty.
5. Wire per the #L58SM Series Kit instructions.

Doing electrical work but you just aren't quite sure of yourself? Pick up a copy of our Basic Auto Electricity Book. This fact filled book walks you through electricity from the basics to a complete automotive circuit diagram. And at just \$7.95, it's better than aspirin at solving electrical headaches!
