

Doing electrical work but you just aren't quite sure of yourself? Pick up a copy of our Basic Auto Electricity Book. This fact filled book walks you through electricity from the basics to a complete automotive circuit diagram. And at just \$7.95, it's better than aspirin at solving electrical headaches!

4-LED AMBER LIGHT, 12 VDC #L63AN-LED

\$25.00

4-LED Amber Light for Do-It-Yourself lighting projects. The light measures 5/8" wide X 2-1/8" long X 5/16" high (overall). The amber housing has diffusion built-in. 12 VDC with wire leads.

NOTE: This is a single intensity light. Should you want it to work like a dual-intensity light, for example for use as an auxiliary running light (less bright) and turn signal (full bright), you will also need to purchase our conversion kit #L-JE03.

Manufactured by Watson's StreetWorks Rod & Custom Products

Thank you for buying a StreetWorks product. Be confident that it will provide the quality and performance that you demand for your car.

Please read and understand all installation instructions before beginning. Planning and preparation will make the entire process easy and quick. DISCONNECT POWER AT THE BATTERY BEFORE DOING ANY WIRING!

1. This a Do-It-Yourself product that requires your attachment, orientation, etc. The flat back side of this LED can be used with double sided adhesive, RTV, silicon caulk, brackets, etc.
2. LED's are quite directional by design. The LED's must point in the direction that you want them to be viewed.
3. Connect the red wire to (+) 12 VDC and the black wire to ground.

Watson's StreetWorks has an extensive line of street rod and custom car and truck parts with one of the largest selections of billet interior trim and electrical accessories. Check us out on the web at www.watsons-streetworks.com.

Thank you for buying our products !
