## 4-WAY HAZARD WIRING #WI-4WX

4-Way Hazard wiring for factory separate turn signals or aftermarket rear turn signals that have been combined with the brake light. Choose the diagram that best suits your vehicle.

Manufactured by Watson's StreetWorks Rod & Custom Products

Thank you for buying a StreetWorks product. Be confident that it will provide the quality and performance that you demand for your car. *Please read and understand all installation instructions before beginning.* Planning and preparation will make the entire process easy and quick.

When you have the factory turn signal light configuration with single filament lights both front and rear use this diagram. You provide your own ON/OFF switch to use to engage the hazard lights
